

Investigating parameter regimes for the measles spatPomp

May 25, 2020

Is the measles model parameterized to a suitable regime for the simulation study?

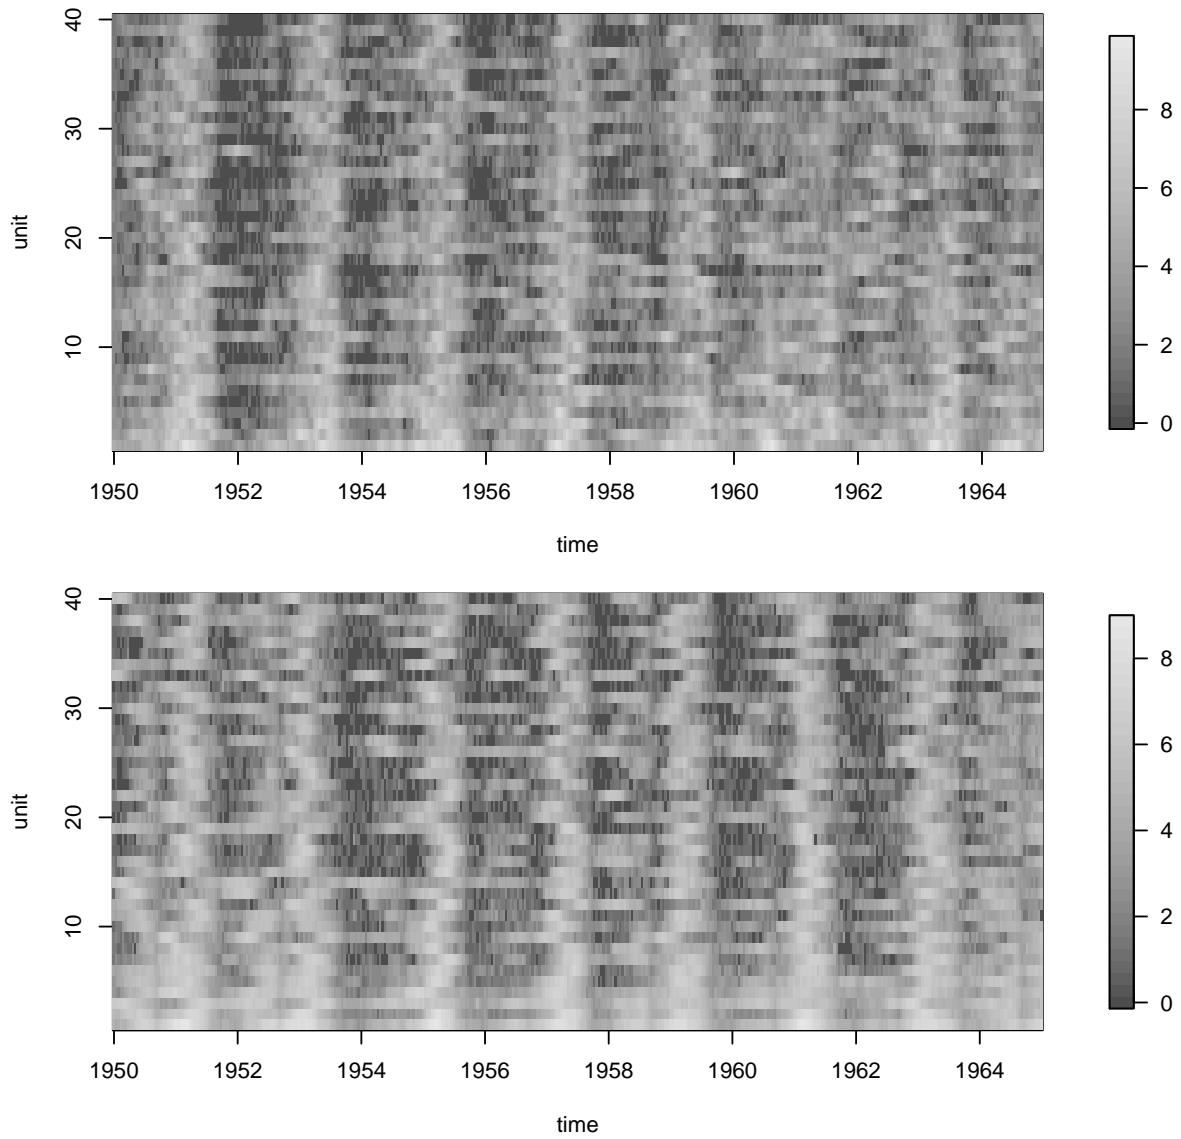

Figure E-1: Log_{10} (reported cases + 1). Top: the measles simulation used for the Jan 2020 version; Bottom: the data.

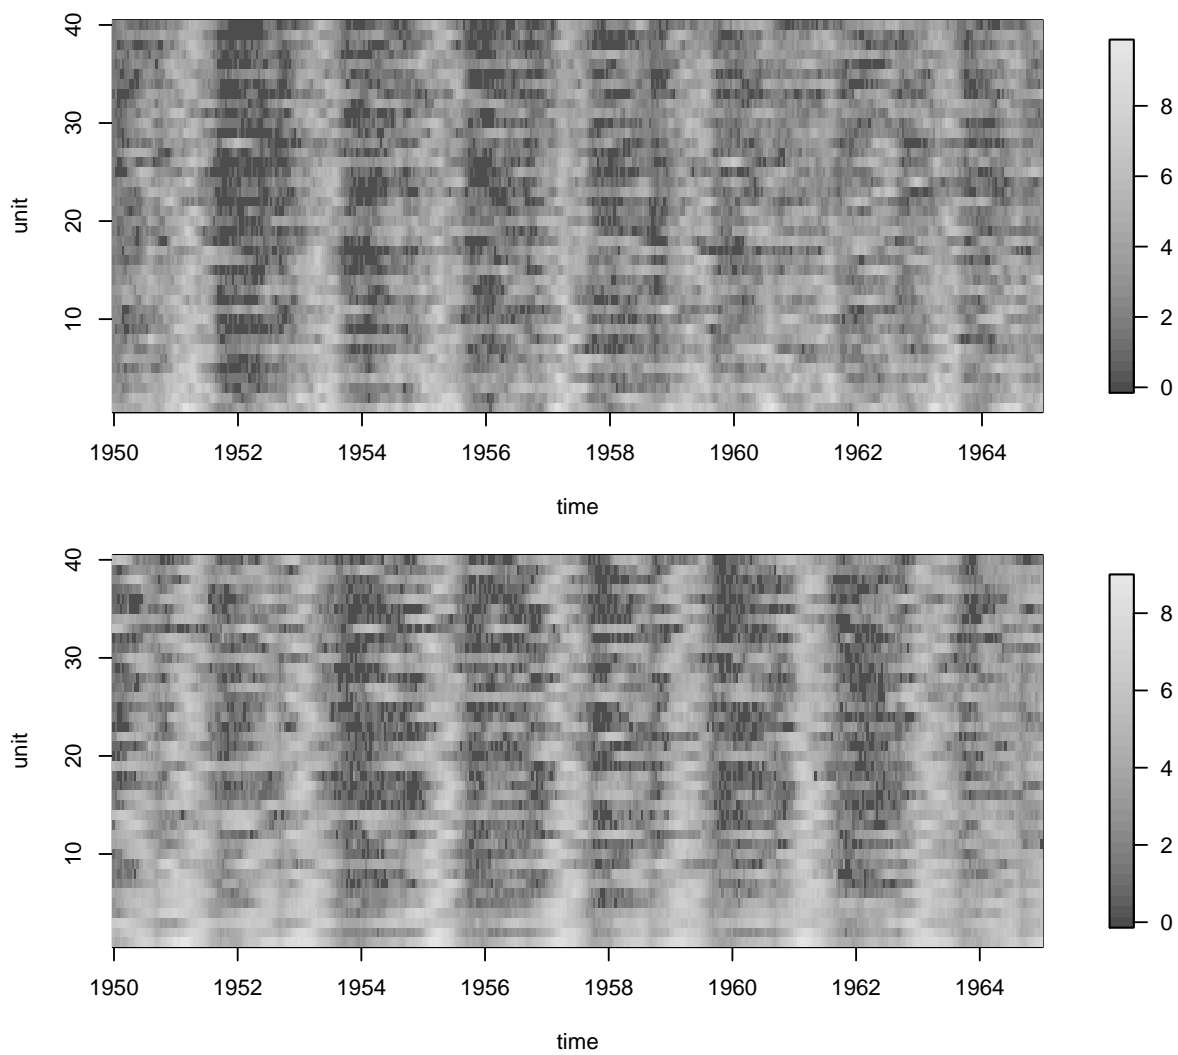

Figure E-2: $\text{Log}_{10} (\text{reported cases} + 1)$. Top: experiment; Bottom: the data.
